

GLASSLAND

In 2015, Lee Cheng Hei and Jonathan Lim De Ming were the proud recipients of the Student Enterprise Fund and the winners of Shell LiveSPARK. Their most prestigious award was walking away as the victors of the #startable 2015, which is a yearly collaboration between ITE and NTU strongly promoting Entrepreneurship and Innovation.

With strong support from the CE Enterprise Development Centre and their drive for success, the boys took their idea of flattening discarded bottles and converting them into a new generation of premium glassware and memorabilia, providing creative options for gifts, trophies, or dining ware. To accentuate the distinct artistry of glass art, every piece comes with an elegantly handcrafted metal stand.
